

As a consumer, I listen to K-LOVE everyday. It is the ONLY station I listen to and I support it wholeheartedly. I'm also trying to get my children to listen to it on a regular basis.

I don't know exactly what an FM translator does or if it even will affect me, but I know that if K-LOVE were taken off the air, millions of people would be devastated. To some that is their only source of encouragement when they are on the road or wherever they are.

If K-LOVE is taken off the air, I'm sure there will be letters and phone calls pouring in. K-LOVE is like a breath of fresh air, a drink of fresh water in a world that is trying to take away the very thing that K-LOVE promotes - a way to know true peace and contentment in life. Please don't take our K-LOVE away!
